

## **HAUL, HANG & LAUNCH (HHL)**

*A lunchtime service for Buyers, Owners, Brokers and Surveyors*

Welcome to KKMI. We offer our HHL lunchtime service for Vessels measuring less than 45' LOA. KKMI offers this service on Tuesday, Wednesday and Thursday limited to one boat per day.

KKMI requires both the Owner of the Vessel (or Owners agent) and the Buyer of the Vessel (or the Buyers agent) to sign the service agreement. The party responsible for the payment will make arrangements with the office before the boat is launched.

Vessel is presumed to be in a condition that requires the standard pressure wash (30 minutes). If additional pressure washing is required due to excessive growth, additional charges may apply.

The Marine Surveyor is requested to accomplish their inspection according to the schedule shown below.

If additional time is requested, KKMI will make all reasonable efforts to accommodate this request. Additional time and charges may apply.

### **Schedule** (Tuesday, Wednesday and Thursday)

- 10:00 am** Vessel to arrive at KKMI.
- 10:30 am** KKMI prepares vessel for haulout, and hauls the vessel out of the water.
- 11:00 am** KKMI pressure washes vessel in washdown area.
- 11:30 am** Surveyor to survey bottom of vessel while in slings.
- 12:00 pm** KKMI prepare to launch vessel.
- 12:30 pm** Vessel is launched and moved from Travel lift pier

If requested, KKMI will shore the Vessel in the yard if yard space is available.

KKMI will credit 100% of the HHL charges if the Vessel returns within 14 days for a bottom paint job.

For Vessels larger than 45ft, due to the length of time with the boat in the slings, we need to shore the Vessel in the yard for the survey to be completed.

Thank you for your efforts in working to this schedule!
